2012 SIIA CODiE WINNER
*"Best Mathematics
Instructional Solution"*

STATE-FUNDED

Grades 4–8

DEAR OKLAHOMA EDUCATORS:

Thanks to a partnership with the Oklahoma State Department of Education, Think Through Math is now available **to all school districts** in Oklahoma **AT NO COST**. Everything, from student licenses, to implementation training and ongoing support, to participation in our national and Oklahoma-specific motivation program is included in this program provided by the OKSDE.

Think Through Math is an award-winning, adaptive, math intervention for grades 4–8, including Algebra Readiness and Algebra 1. The program provides unprecedented differentiation that prepares students for the more rigorous Common Core State Standards. Think Through Math deepens understanding of critical mathematical concepts, improves higher-order thinking and problem-solving skills, and transforms the way students feel about math – and themselves.

What makes Think Through Math so effective?

- A web-based, in-depth math curriculum that students use from home and school
- Adaptive, personalized instruction that accelerates conceptual understanding and skill proficiency
- Just-in-time support from live, bilingual, certified, U.S. math teachers to ensure success

Interested in learning more about Think Through Math? Register now for a 30-minute webinar to find out more about this state-funded program for Oklahoma schools. Please click or Copy + paste the link below into your web browser to see a full list of sessions and links to register for the webinars.
